2. Go to the United Team Room in your personal website, click the link on the top left titled STEPS TO SUCCESS, and complete Steps 1 through 7 right away. After you do Step 1, let your mentor know and move to Step 2 with your mentor and complete all steps.

Also by purchasing one of the Value or Career Packs, you will be able to participate in the Pacesetter Program which will allow you to earn up to \$10,000 or more in special bonuses. This program will allow you to double your one-time advancement bonuses by achieving your goals in a certain time frame. (Note: Details on the Pacesetter Program are found in the Compensation Plan both within your United Team Room and Business Resources of your website, and in your Melaleuca Membership Kit.)

Everyone getting started with our team has a personal mentor and a support team of over 50 members to assist them in building their business. You can find a list of the support team members in your website in the United Team Room. I am here to help you reach your goals. However, I am not

here to push or pull you into building your business. After all, it's YOUR business. It is often the start that stops most people. Our goal is to **JUST GET STARTED**.

Please let me know if this ever changes for you and you would like to refer someone you care about! I am happy to help!!

Welcome to Melaleuca...

You have made a smart, simple shopping decision that will improve your health, the health of your family and the environment. Switching to our line of safer, environmentally sensitive products will help reduce harmful toxins in your home and minimize chemicals in our environment. Also, it will reduce the load on your immune system, which is the key to good health.

We encourage all Preferred Customers to listen and read about some great product information:

User name - customers

Password - wahu

Here are a few reminders:

- Our products are concentrated. Not only does this keep costs down and offer you a tremendous value, but it also reduces the amount of plastic we are recycling.
- The cleaning products are easy to dilute in mixing spray bottles (the directions are on the sides of each product as well as the mixing spray bottle).
- 100% money-back guarantee on all of the products within their first 60 days.

- Also, if anything is damaged in shipment, just call the toll-free number (1-800-282-3000) and they will send a replacement immediately.

UPS Shipping:

- Your order is shipped by UPS the same day it is placed if by 11:00 AM MST.
- Box should arrive in 5-7 business days.

Shop by the 16th each month and earn 10% back in Advantage Dollars:

- Do your shopping by the 16th each month and you'll accumulate 10% of your point total in your Advantage Account. Once your account reaches \$20, you can spend it on FREE products. Another great value!
- This is an extremely generous program it's like getting your shipping for free!
- Most customers get into the habit of shopping on or before the 5th of each month. By doing this you are assured of earning 10% back, and your product order arrives earlier

The concept is that you "switch stores" and spend no new money:

- Just shop for the items that you need – Those you would buy in the retail store in the next 30 days... such common sense – no new money, just re-direct the money you are already spending!
- By shopping monthly you are assured of getting fresh products – not products that have sat on the shelf for months!
- As a preferred customer, you have a COURTESY insurance back-up order that will be shipped to you automatically if you should ever forget to shop.

It is so easy to order:

- Make your shopping list! We will call your 1st few orders in together (1-800-282-3000) and we can look at the benefits of the two home conversion packs as a way to help you convert and save 20% over the preferred customer prices.
- For your 1st 4 months of your membership, I will be checking with you to see how you like the products and help answer any questions you may have.
- You will be receiving coupons for FREE PRODUCTS when you shop in your 2nd and 3rd month which is another great value!

[Alice, Are you ready for that Change?](#)

Hi Alice,

It's Kristie with **Work at Home United** again. I wanted to touch base and see how you are doing and also see if you are still searching for that option of working from home.

I know that sometimes the idea of achieving what you want in life can seem so unattainable, so difficult to achieve. In fact, it is the start that stops most people. Sometimes we just have to get started.

The future can be predicted by the past unless there is something that changes it. **BE THE CHANGE IN YOUR FUTURE!**

The first step, no matter how small, is the MOST critical because it is more than others will do. If you don't change what you are doing today, you will be in the exact same place at the same time NEXT YEAR.

Take the first step NOW, instead of later, and you will be on your way to a better future.

It is YOUR life, YOUR dreams, and YOUR business. Of course, I will be here to assist you, but it starts with YOU.

Email me a good day/time that you are available so we can get you the details about **Work at Home United**

Make it a great day!

Alice, What's YOUR Why?

Working from home....What's your Why?

For anyone who has ever considered a home based business they had a reason for wanting it. Maybe it was more money, more time with family, flexible hours, being their own boss, paying off debt, saving for children's education - vacations - or retirement. I don't know your why for requesting more information about wanting to start a home business, but I do know that every person who honestly requests the information had one or more reasons when they requested it.

Work at Home United is an incredible team where you receive a free web site, training by phone and computer, your own personal mentor to help guide you, an awesome company to work with, a support team of thousands of men and women across the United States and Internationally.

You may be saying I don't have the time now - neither did other successful people when they started. Over 7 years ago, I myself had 2 little girls at home, one was almost 3, the other 9 months old AND I was a single Mom...BUT I wanted to make a change for myself and my girls and I knew I needed to make the time, otherwise I would have even less time and more stress at the pace I was going.

You may be saying I don't have the money now - If you don't have it now, ask yourself when will you? Without a plan and determination you may never have it. We can help with the plan you need to supply your own personal drive.

You may be saying I don't think I can do it - If you don't try you'll never know. Our business opportunity is guaranteed. If it's not for you, you can get the money you spend back for up to 4 months.

To run a home business you need to be a self-starter, you need to be able to work well without supervision, you need to look at your efforts with the long-term goals in mind, you need to be willing to learn. If this is you, give me a call so we can discuss your interest.

I'm looking for teammates who have the drive and desire to change their current situation, are

honest, dependable and ready to start. Is that you? I look forward to talking with you soon if it is.

Make it a great day!

There are very few guarantees in life, yet one thing is certain -- if you never attempt anything, you'll never accomplish anything. We frequently are held back by fear of failure. And failure is always a possibility. It is a certainty, however, when you never try in the first place. You become what you think about most. When you continually focus on the fear of failure, failure will become real for you. Look instead at the possibilities. Look at what could happen if only you would attempt it. Sure, it might not succeed completely. Yet even then you will learn something.

DRIP #4

[Alice, Think About the Possibilities](#)

Hi Alice,

Open up your Mind for a moment and think about the possibilities. What is really keeping YOU from getting started with your own business?

Ask yourself...If you don't change what you are doing today, where are you going to be this time next year? Well, in the exact same spot you are today. When you really think about it, it is true. Now, when I got started with my own business, I was a bit scared. Could I do it, would I be successful, could I raise 2 girls and still be able to balance working? It happens to all of us. But I also knew that if I didn't do something about my situation, it would never change. So my desire to change things overcame my fears. I've been at home now for over 6 (YES, SIX) years....would never have thought that possible 7 years ago. But it was the best thing that I almost didn't try.

What is holding YOU back from making your dreams of working from home, having that better quality of life, come true?

I'm here to help you. I would be your personal mentor...guiding you thru it with free training, mentoring, tools... everything you would need to be successful EXCEPT for your commitment. That is really the only thing now that stands between today and making changes for a better tomorrow.

At one point in time, you were looking for that change...I don't know what happened between now and then, but let's get together so we can help you create the change you are wanting in your life....more time and freedom for yourself, extra income, debt free and even help you replace a full-time income if that is what you are seeking. I'm not going to be a pushy salesperson or telemarketer...not something that we do with our team. BUT I am someone that loves to help others change their lives...because I was a skeptic myself and I want others to experience the difference that **Work at Home United** can really make. If you are interested in getting more information on this and/or would like to join an awesome team so we can help you reach your goals, please email me: (Your email address goes here)

[Alice, You Decide](#)

Hi Alice,

Do you notice that I am still around....still wondering what you are up to? I don't do that to annoy you! It is just that at one time you were looking for a way to make an income from home and had requested information about my business.

I realize that there are many things out there that make claims and promises of success--even while you sleep, overnight. We don't. I tell you honestly that you actually have to do something--which would seem more like an honest approach, right? Some will pursue the business 2-3 hours a day and are successful. Some more, some less. And that is one of the many great things about this opportunity--you decide what is best for you and your family, depending on your needs.

You see, I've been doing this for OVER SIX years now. Obviously, something has to be working for me or I would not still be involved, right? I believe in what I do and am proud to tell others about it. For years I was working outside of the home, trying to make ends meet. Now, I'm able to have the financial freedom that I never thought I would...And the best part? I am home with my 2 girls, playing with them and taking care of them...all the things I used to have to pay someone to do for me!

Will you create financial security for yourself? Will you have that extra money that your family needs so that you can go out to dinner without looking at your checkbook balance first? Or not going to dinner at all??

Are you ready for a change? Is it time to create a new financial future?

You Decide. One thing is certain....if you don't act on this - how long will you let your present situation continue? How important is it for you to make a difference in your life and your financial freedom?

If it truly is important, take a minute to respond to this and let me know you are still interested. I am happy to call you back and discuss the details of the business and answer your questions!

Click here to schedule an appointment to get the details...but don't delay, time is running out!

Make it a great day!
